

SIP Medical Emergency Card

The lack of information about a patient's medical history and conditions is one of the main reasons for delays, malpractice, and unfavorable outcomes in emergency situations. With the SIP Medical Emergency Card, you can be sure that life-saving information can be accessed in the shortest time possible – anytime and anywhere.

Independent of your age, making emergency information accessible to first responders is key to receiving the best care in the fastest possible manner.

Key Features

- **Medical Information:** Registration of medical conditions, required medication, blood type, allergies, drug incompatibility, and much more.
- **Full Privacy:** On-device 2-factor authentication to protect against unauthorized access.
- **Emergency Contacts:** Registration of personal, insurance, and assistance emergency contacts.
- **Worldclass Solution:** More comprehensive and effective than any other emergency profile solution.
- **International Suitability:** Fast accessibility for first responders globally and automatic suggestion of local medical emergency number.
- **Transparency:** Notification each time the emergency data is accessed.
